WHAT BROUGHT YOU TO COLORADO?

I moved to Denver when I was four years old because my father, a mining engineer, was transferred from La Paz, Bolivia.

DESCRIBE YOUR PERFECT EVENING OUT IN DENVER.

Taking my wife out to dinner at one of the many great restaurants in Denver followed by a movie or a show.

WHAT'S YOUR FAVORITE THING ABOUT LIVING HERE?

The wonderful weather and numerous outdoor activities. I enjoy going to the mountains to ski, hike and mountain bike.

TELL US ABOUT YOURSELF AND YOUR WORK.

When I was 11 I saw the story of Louise Brown, the first test-tube baby. While I watched the doctor being interviewed, I was captivated and decided I wanted to be an infertility specialist and dedicate my career to women's health.

As a preeminent pelvic surgeon providing urogynecologic care for more than 10 years, I have seen thousands of women who have functional and aesthetic concerns related to vaginal relaxation which often occur as a result of childbirth.

Known as THE center for female pelvic medicine and cosmetic surgery, ASC's mission is to help women improve their body comfort levels and quality of life. We specialize in urogynecology treating urinary incontinence and pelvic relaxation disorders; cosmetic gynecology including labiaplasty and vaginal rejuvenation; body contouring including in-office SmartLipo™ MPX and VASER® LipoSelection; and dermal aesthetics including BOTOX® Cosmetic, dermal fillers and skin resurfacing treatments.
